## ***Interested in Doing Business with H2M?***

H2M architects + engineers (H2M) is a multi-disciplined professional consulting and design firm made up of more than 300 staff members crossing the fields of architecture and engineering. Since 1933, H2M has helped design and build many communities and the firm is proud of its long history of client service and consistent ability to meet tough architectural, engineering and environmental challenges head-on.

H2M is ideally equipped to provide support on projects in New York and New Jersey with seven office locations throughout the area and a diverse staff including 65 licensed professional engineers, 35 registered architects, two licensed landscape architects, one licensed land surveyor, 30 LEED Accredited Professionals, six LEED Green Associates, environmental scientists, geologists and hydrogeologists, groundwater professionals, construction inspectors, GIS and CAD designers, certified asbestos and lead inspectors and managers and sewage and water treatment plant operators.

H2M is actively recruiting professional subconsultants and subcontractors to complement its talented staff and is especially interested in partnering with firms holding D/M/WBE, Section 3, and/or SDVOB certifications. If your firm is authorized to conduct business in New York and/or New Jersey and offers one or more of the services listed below, please visit [h2m.com](http://h2m.com) to complete our prospective Subconsultant/Subcontractor Information form.
